Dear Colleagues,
Dear Friends,

For the first time since 1927, its founding year, our association will hold its Annual Congress in Sub-Saharan Africa, in the Senegalese capital Dakar on the Cap-Vert peninsula, where African and European cultures intersect.

The rapid growth of this capital epitomises the African continent's economic impetus.

The main themes of our Congress, which were chosen with this dynamism in mind, are as follows:

"Governance of Mineral and Energy Resources in Africa and Beyond", a topical subject that is particularly relevant during this period of energy transition;

"Effectiveness and Relevance of Judicial Systems" is also an essential theme for reflection in order to understand our societal models.

As lawyers, we are fully involved in the functioning of our judicial systems; the idea that we are mere contributors to the administration of justice is completely outdated. We are now one of the key components of the judicial framework, in the capacity of both participant and observer.

This Congress has been organised with the active and friendly cooperation of the Senegalese Bar Association, its Presidents and the members of the Governing Body.

In view of its pluricultural and multilingual role, the UIA, after almost a century of existence, had a duty to rectify an anomaly, and perhaps even remedy an injustice, by at last making a stop in Sub-Saharan Africa long enough for a Congress to be held.

This is the welcome decision that was made by the General Meeting in Luxembourg on November 8, 2019, which selected the Republic of Senegal, its bar association and its capital city to host what was to be the 65th Congress in October 2021.

The global scourge of the COVID-19 pandemic meant that humanity was locked down for several months, which forced us to readjust.

Thankfully, the current lull allows us to be daring and optimistic, qualities which are both embodied in the upcoming Dakar Congress.

Dakar is a vibrant, lively city, and not only because General de Gaulle acknowledged this 64 years ago.

We hope the Congress will be a moment of respite that the attendees and those accompanying them will be able to savour. We look forward to seeing as many of you as possible and to your contributions to the Congress.

Indeed, for several months, our Bar Association, its President and the Congress Organisation Committee have worked tirelessly, in synergy with UIA President Hervé Chemouli and his talented colleagues, to make this 66th Congress one that is truly unforgettable.

In this endeavour, we know that we can count on the support of Senegal and its President, Mr Macky Sall who, as soon as he met with the UIA President and delegation in October 2019, stated that he was willing for this Congress to be held under his auspices.

This Congress will also be held under the patronage of His Excellency the President of the Republic of Senegal, Macky Sall.

Every effort is made to ensure that this Congress is a celebration and a success.

The opening ceremony, as well as the scientific work, takes place at the Abdou Diouf International Conference Center (CICAD). Its modern architecture is a magnificent setting for this event.

The gala dinner is held at the oceanside Terrou-Bi Resort. A special musical surprise awaits you at the informal evening, where African rhythms will feature prominently.

In addition, numerous social activities are arranged for Congress attendees and those accompanying them, so that they can discover Dakar and its surroundings, and also African crafts, cuisine and culture.

This Congress embodies our association's values: sharing, equality, culture, our diversity and the genuine sense of community that is our strength.

I am happy to welcome many of you in Dakar to celebrate this occasion and absorb the intellectual and cultural richness of Africa. This event is a unique opportunity, and it will take place under conditions that have been made exceptional by the involvement and commitment of our entire community.

With warm regards,

Hervé Chemouli
UIA President

Since then, he has followed the preparations for the Congress most attentively, for which we are grateful.

We therefore intend to offer our guests the best of Senegal, in particular in terms of science, culture and gastronomy.

We will, as they say, pull out all the stops, and also combine business with pleasure.

While the work led by experts in numerous fields and topics at the cutting edge of current affairs will naturally take centre stage, attendees and those accompanying them will also have the opportunity to visit historic sites and monuments, including the House of Slaves on Gorée Island, the Thiès Tapestry Factory, the African Renaissance Monument, the Museum of Black Civilisations and the Bandia Wildlife Reserve.

The Congress is the perfect opportunity to experience Senegalese Teranga, or traditional hospitality: every effort will be made to ensure that guests receive a warm welcome, have a comfortable stay and feel completely at home.

We are also extremely honoured that our country has been chosen to host this Congress and that I have been nominated as Congress President.

We will endeavour to show that we are worthy of the challenge, in the same way as our Lions of Teranga, who won their first Africa Cup of Nations tournament in February and have now qualified for the FIFA World Cup in Qatar.

We hope to ride the same wave of success and firmly believe that the UIA will help us to do so.

Several types of membership are available, depending on your profile and the country in which you practice law.

Join the UIA and become a member of the world's strongest network of lawyers

You can participate in the work of the 41 UIA commissions and share your experience with professionals from all over the world, during seminars, training courses and the UIA annual Congress.

OPENING CEREMONY ■ 10:00 - 11:30 A.M.
WELCOME LUNCHEON ■ 12:30 PM
CICAD

The Opening Ceremony of the congress will take place at the Abdou Diouf International Conference Center (CICAD), a magnificent modern architectural setting for this event, in the presence of His Excellency the President of the Republic Macky Sall. According to the tradition of the UIA, several personalities will intervene to welcome the participants to the congress and wish them fruitful meetings. This ceremony will be punctuated by musical interludes of Senegalese artists of international fame.

The host Bar of this congress, whose hospitality and support in the preparation of this event have been exceptional, will open the ceremony with the interventions of the President of the Senegal Bar, **Mr. Mamadou Seck** and the President of the Congress 2022 and outgoing Bar President, **Mr. Papa Laïty Ndiaye**.

It is also during the opening ceremony that a tribute will be paid to lawyers threatened in the exercise of their profession and that the 2022 UIA Rule of Law Award in cooperation with LexisNexis will be presented, which rewards an individual or an organization for its contribution to the development of the Rule of Law within the legal community. The 2022 award is given to :

- **Mohamed El Baqer** from Egypt
- **Wolne Sady** Foundation (Free Courts) from Poland

The second edition of the UIA/LexisNexis LegalTech Inspiration Award will also be presented during the opening ceremony to **SP Tech** from Rome, Italy, for the presentation of a product which creates forensic certificates to prove illicit transmission.

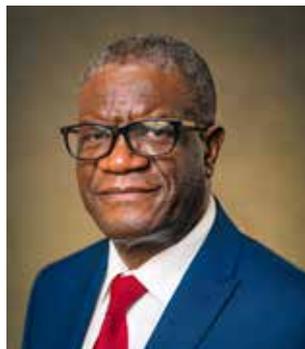

The keynote speech will be given by **Dr. Denis Mukwege**, «the man who repairs women,» a prominent Congolese gynecologist who was awarded the 2018 Nobel Peace Prize for his important work in helping rebuilding women victims of sexual violence in armed conflicts. His work and dedication have been recognized worldwide through various awards such as the United Nations Human Rights Prize (2008), the Sakharov Prize (2014) and the Nobel Peace Prize (2018). He has also received honorary degrees from different universities.

An intervention by the President of the UIA, **Mr. Hervé Chemouli**, will present the actions of the UIA as well as analyze current legal issues.

The speech of **His Excellency the President of the Republic Macky Sall** will close this important and emblematic ceremony, held for the first time in sub-Saharan Africa.

His Excellency the President of the Republic Macky Sall

Dr. Denis Mukwege

The ceremony will be followed by a welcome lunch, where you will meet your colleagues and friends. This year the opening ceremony will take place at 10:00 am. Due to the presence of His Excellency the President of the Republic Macky Sall and the security measures deployed, all participants must be present at CICAD no later than 9:15 am. No access to the Ceremony will be possible after 9:30.

NETWORKING DAY

The opening day of the Congress is the opportunity to meet with your colleagues again within the particularly warm atmosphere that characterises UIA!

UIA Networking

One of the reasons for attending a global Congress is to network – to meet people who might be useful for one's own law practice and to make oneself known to others and, why not, create organic links.

Speed Dating for Law Firms, first introduced at the Macau Congress in 2013, at the initiative of Fred KAN, is a unique programme offering such an opportunity.

All participants interested in connecting with law firms outside their own jurisdiction each get 3 minutes on stage to introduce themselves and their firm. Like-minded lawyers are able to meet at the session and the following social event to explore opportunities for co-operation.

SOCIÉTÉ AFRICAINE DE RAFFINAGE

UN OUTIL INDUSTRIEL AU SERVICE DE L'INTEGRATION SOUS-REGIONALE

LA SAR ET SON AVENIR.

Augmentation des Capacités de Raffinage et Adaptation des Unités pour le Traitement du Brut Sénégalais.

L'outil industriel est mis en place en 1963, au lendemain des indépendances, pour assurer l'approvisionnement du pays en produits pétroliers. A cet effet, la SAR doit, pour traiter le nouveau brut Sénégalais à court et moyen termes opérer des mutations d'ordre techniques, technologiques et logistiques.

APPROVISIONNEMENT

Dans la perspective d'une adaptation liée au contexte de découvertes pétrolières et gazières la société africaine de raffinage envisage dans le moyen terme :

- la Construction d'un Sea-line de fuel/brut
- la Construction d'un Sea-line de produits Blancs (CBM) pour accueillir des navires à Mbao (Senstock) de Gasoil Kérosène et Supercarburant ;
- le Doublement du sea-line au poste d'amarrage de butane pour sécuriser l'approvisionnement du pays.
- la Sécurisation et dévoiement du système d'expédition (pipe-lines) vers les dépôts (produits finis) suite à l'implantation du TER.
- la Construction d'un bac de brut à toit flottant de 50 000 m³, d'un bac de gasoil de 4500 m³, d'un bac de FO de 4 500 m³ et d'un bac d'essence de 3 000 m³.

PRODUCTION

Dans le souci de répondre aux nouvelles exigences AFRI4 et AFRI5 et se positionner pour le raffinage du pétrole Sénégalais, des dispositions ont été prises dans le court et le moyen terme pour adapter nos installations au contexte :

- L'Extension de la distillation de 1,2 à 1,5 millions de Tonnes par an avec l'ajout d'une Unité Preflash lors de l'arrêt réglementaire en 2021 ;
- L'Extension du reforming de 14 à 18T/h (Compatible avec l'augmentation de la production de butane) ;
- Construction d'une unité d'hydrodésulfuration du gasoil (HDS) qui pourra : garantir l'accès à des bruts plus sulfureux (moins chers sur le marché) et intégrer la demande portant sur du gasoil à bas taux de soufre (nouvelles spécifications AFRI6;)
- Dans le long terme faire l'extension de la distillation de 1,5 à 3,5 millions de Tonnes afin de satisfaire le marché Sénégalais et une partie du Marché sous-régional. Cette nouvelle configuration permettra à la Raffinerie de traiter le brut Sénégalais en mélange avec du brut Erha à : 75% Brut Pétrosen et 25 % Brut Erha.

MAIN THEME 1 ♦ OVAL ROOM GOVERNANCE OF MINERAL AND ENERGY RESOURCES IN AFRICA AND BEYOND

Coordinators:

- **Ameth BA**, Former President of the Senegalese Bar Association (Ba & Tandian) Dakar, Senegal
- **Aboubacar FALL**, (AF Legal) Dakar, Senegal

9.30 am - 11.00 am - How to negotiate extractive contracts successfully and avoid the pitfalls

Negotiating investment contracts in the mining and energy sector is often a difficult or even perilous exercise for the host government. In its capacity of guardian of natural and cultural resources (under the Public Trust Doctrine), the host government must ensure that the principles of governance are upheld, while taking into account investors' often opposing interests.

This panel's experts will examine this sub-topic on the basis of their diverse and varied experience of negotiations. The objective is here (i) to identify the contractual pitfalls and (ii) to propose solutions that are designed to avoid them.

Co-moderators:

- **Aboubacar FALL**, Partner at SCP AF LEGAL, President of the *Société Sénégalaise pour le Droit International (SSDI)*, Senegal
- **Olivier S. POGNON**, Director and Chief Executive Officer of the African Legal Support Facility, Côte d'Ivoire

- **Aïssatou SY**, Head of Legal Counsel at *Société des Pétroles du Sénégal (PETROSEN)*, Senegal

11.30 am - 1.00 pm - Local content policies: challenges and opportunities for the host country with respect to foreign investment

The 21st century has seen a significant development of the local content policies and laws adopted by countries that produce raw materials, in general, and extractive resources, in particular. This is the case of countries such as Brazil, Indonesia, Nigeria, Angola, Ghana and Senegal.

The desired objective is primarily to ensure a fair price for extractive (mineral and energy) products, the promotion of direct employment, the development of other sectors in addition to the extractive sector, and the strengthening of domestic enterprises' capacities so that they can participate throughout the value chain, etc.

While it is true that local content policies offer tremendous opportunities for local populations and enterprises, they contain just as many challenges and risks, which, if they are not identified and mitigated, may ultimately turn out to be counterproductive with regard to their initial objectives.

This panel's experts will each give the point of view of the various parties involved in the preparation and implementation of local content policies and legislation.

In this session, speakers from various cultures and countries will help us understand some of the roots of consensual dispute prevention and resolution, from local African community traditions to the structured frameworks used by some governments. The aim is to provide insights into the importance of cultural aspects in the prevention and resolution of conflicts.</p> <p>The panel will explore how local dispute resolution techniques, which are often intrinsic to the culture and history of a societal group, have come to shape an international effort to harmonise cross-cultural practices and international dispute resolution rules. From grievance mechanisms used in mining operations in Africa, to community disputes, to how traditional quarrels have shaped the judicial system today, and the shift towards a harmonised legal framework for mediation and conflict prevention, join us to gain insight into how differences in culture, traditions and techniques can lead to a more effective and culturally sensitive approach to dispute resolution.</p> | <p>Thomas GAULTIER <i>(Abreu Advogados)</i> <i>Lisbon, Portugal</i></p> | <p>Amadou DIENG <i>Dakar, Senegal</i></p> <p>Lotfi EL AJERI <i>(El Ajeri Lawyers)</i> <i>Tunis, Tunisia</i></p> <p>Malick LAMOTTE <i>(Magistrate, President of the Dakar Commercial Court)</i> <i>Senegal</i></p> <p>Catherine PEULVÉ <i>(Catherine Peulvé Avocat - CPLAW)</i> <i>Paris, France</i></p> |

After noting some of the common problems, the panel will then discuss what stakeholders can do. The IBA Wellness Taskforce survey, for example, found that many law firms are aware of the problem and purport to address it, but that the individuals responding to the survey indicated that in most cases, the actions did not match the words. The panel will focus on how law firms and other institutional entities can start making a difference. The panel will also address the issue not so much in terms of Covid but the effects of continued remote practice even post-Covid.</p> | <p>Louis F. BURKE <i>ABA Liaison to UI</i> <i>(Louis F. | <p>Private International Law</p> <p>◆</p> <p>Room 205</p> | <p>Private International Law in the Aftermath of the Covid Pandemics</p> <p>The coronavirus crisis has forced us to reconsider the classical approach to private international law matters. Indeed, over the last two years, we have seen a high volume of legislation and legal regulations, and of court decisions on different subjects which are at the core of our discipline.</p> <p>Just to list a few examples, the Australian courts had to examine the impact of Covid-19 on an exclusive foreign jurisdiction clause, since the claimants argued that the pandemic prevented them from commencing proceedings in the forum chosen by contract. Also, we have seen this in various European court cases, where it has been debated whether the national regulations arising from the pandemic can operate as overriding mandatory rules, and to what extent. Indeed, in the context of tort claims for damages caused by infection, both against companies and States, the courts have had to face the challenge of applying foreign law as the substantive law on damages.</p> <p>The programme will include speakers from common and civil law jurisdictions based in Europe, Asia, Africa and the Americas who, based on their experiences, will discuss related sub-topics with the aim of providing a platform to discuss lessons learned in the field by all the participants and to identify challenges, as well as best practices on our session's subject.</p> | <p>Fernando DE LA MATA <i>(Pérez-Llorca)</i> <i>Barcelona, Spain</i></p> | <p>Martial AKAKPO <i>(Martial Akakpo et Associés)</i> <i>Lome, Togo</i></p> <p>Monica KÖNIG <i>(Menold Bezler)</i> <i>Stuttgart, Germany</i></p> <p>Yoshihisa HAYAKAWA <i>(Uryu & Itoga) Tokyo, Japan</i></p> <p>Paolo LOMBARDI <i>(Studio Legale Elexi) Turin, Italy</i></p> <p>Anges NZIGOU <i>Libreville, Gabon</i></p> <p>Francisco RAMOS ROMEU <i>(RYA Abogados)</i> <i>Barcelona, Spain</i></p> <p>James D. At present, access to clean, safe and affordable water must be managed not only to avoid waste, but also to ensure the continuous supply of a resource that is vital for public health. Furthermore, in recent years water-related activities have become an important part of the economy, and competition in the sector has become a reality in several States. In light of this, we will examine the regulatory framework at national level and discretionary ways in which public authorities regulate the sector in order to ensure that consumer needs are met.</p> | <p>Marco MARIANI <i>(Studio Legale Associato Cattede Mariani) Florence, Italy</i></p> | <p>Mareike HEESING <i>(Oppenhoff) Cologne, Germany</i></p> <p>Marco MARIANI <i>(Studio Legale Associato Cattede Mariani) Florence, Italy</i></p> <p>Claude NICATI <i>(Étude NVLE) Neuchâtel, Switzerland</i></p> <p>Katarina OSKARSSON <i>(Advokatfirman Allians) Stockholm, Sweden</i></p> |

The public and regulators are taking a very close look at biometric technologies. From a political and human rights perspective, facial recognition technologies can pose dangers to privacy, the right to free movement, to assemble, and to protest. From an ethical standpoint, several technology providers have decided to limit or discontinue their facial recognition programmes. However, biometric data can be used for many useful purposes, for example for security in airports, train stations, schools and in sensitive locations. The pandemic has disrupted and altered migratory patterns for over two years, and catapulted remote work to the forefront of global mobility. In addition to severely disturbing the global oil and gas markets, in displacing millions of people from Eastern Europe, the war in Ukraine has created a global refugee crisis that may take years to resolve.</p> <p>In the midst of these crises, immigration and estate planning lawyers have had to pivot quickly to meet the needs of their clients, both paying and pro bono. Given the major shifts in global events over the past three years, this panel will discuss best practices for coordinating immigration and estate planning advice, focusing on (1) family separation and reunification, (2) residency and citizenship planning, (3) executive assignments, and (4) wealth planning.</p> | <p>Carlos ANGLADA (Monereo Meyer Abogados) Madrid, Spain</p> <p>Hervé N. The session will focus on a comparison between the CISG and OHADA Uniform Act with regard to contract law, and the status of the project to reform sales law in the OHADA countries, with the aim of identifying possible differences in regulations, as well of raising awareness of the most topical issues concerning the sale and transport of goods in/from OHADA countries.</p> <p>The debate will involve highly qualified practitioners from different jurisdictions who will discuss the main practical questions related to the drafting of sale contracts and transport documents, starting with analysis of the most widely used standard forms in international trade, and paying particular attention to the allocation of risk between the contracting parties. In this context, the aim of the session will be to explore the best practices in drafting effective contract clauses in international sales and transport contracts, and to offer suggestions for choosing evaluation approaches and appropriate tools to be adopted from the perspective of each contracting party, in order to mitigate the numerous risks that may occur in international transactions.</p> | <p>Mariaelena GIORCELLI <i>(Bortolotti, Mathis & Associati)</i> <i>Turin, Italy</i></p> <p>Alberto PASINO <i>(Zunarelli Studio Legale Associato)</i> <i>Trieste, Italy</i></p> | <p>Marilena BACCI <i>Frankfurt, Germany</i></p> <p>Alix BOSSON <i>(HFW)</i> <i>Geneva, Switzerland</i></p> <p>Antonio FRATICELLI <i>(Avv. This session would explore how and to which extent various jurisdictions worldwide respect, protect and fulfill health-related rights in their constitutions and laws and how litigations empowered individuals to raise human rights claims for health and has provided rights-based accountability in national and regional courts, with human rights now understood to offer a framework for health policy. | <p>In-House Counsels</p> <p>◆</p> <p>Room 201</p> | <p>What on Earth is an In-House Counsel? Building Bridges Between In-House Counsels and Attorneys. What is the difference in the training, status and practice of the legal profession between an in-house counsel and an attorney? Why in some countries is the in-house counsel a member of the bar association but not in others? Is it time to reduce the barriers? Moreover, where do compliance and data privacy officers fit into the picture? These questions and many more will be debated during this Q&A and interactive discussion session between in-house counsels and attorneys. The aim of the session is to find out more about the two legal professions and to build bridges between them, with a candid approach and with no unconscious bias. We will also consider possible ways to influence actions that are designed to unify the rules on the two professions, in countries where there are still barriers.</p> | <p>Arianna RIGHI (ADM International) Rolle, Switzerland</p> | <p>Esteban CARBONELL O'BRIEN (Carbonell O'Brien Abogados) Lima, Peru</p> <p>Clayton E. GENERAL EXCURSION
SUNDAY, OCTOBER 30 ■ 9.30 AM - 4.30 PM
BANDIA RESERVE

Discover African wildlife and observe wild animals in their natural habitat up close.

With its high biodiversity, Senegal has many parks and nature reserves. Located only 65 km from Dakar (about an hour's drive), the Bandia Reserve and its 3,500 hectares

of magnificent nature bring the mythical African fauna within everyone's reach.

The morning will be dedicated to an unforgettable safari where you will be able to meet most of the mammals of Africa: white rhinoceros, zebras, giraffes, buffaloes, antelopes, monkeys, crocodiles, giant tortoises, ostriches, and many others, as well as more than 120 species of birds. Your guide will help you to spot as many animals as possible. The tour will also provide an opportunity to see many baobabs of all kinds, the baobab being an emblematic tree of Senegal.

After the visit, you will have lunch at a restaurant overlooking the reserve's waterhole: an enchanting setting where you will be able to watch the animals come to drink while the monkeys squabble.

The return to Dakar will be in the afternoon.

If you require a transfer to the Dakar International Airport after this tour, please indicate it upon registration or at the UIA Welcome Desk at the CICAD. In this case, we recommend that you book a return flight departing no earlier than 7.00 pm.

You can still register for this excursion at the UIA Welcome Desk at the CICAD.

Price of the general excursion including transportation by bus, guided visit and lunch: €100 per person.

Sonatel plus qu'un opérateur

Avec vous, pour vous

sonatel

Located at the western end of the African continent, facing the Atlantic Ocean, Dakar unfurls with a striking contrast between modernity and authenticity. Its lively markets, its nightlife, its peaceful islands just offshore, its sites steeped in history and its authentic fishing villages form a surprising kaleidoscope. Lively and warm, Dakar is a captivating city that endlessly reinvents itself.

This year we have chosen to work with Africa Tourism Solutions (ATS) to come up with an interesting and varied programme of excursions for the accompanying persons of our delegates..
