## Introduction

In September 2020, Trieste will host the EuroScience Open Forum, the largest interdisciplinary science meeting in Europe, an extraordinary event dedicated to scientific research and innovation, offering a unique framework for interaction and debate for scientists, innovators, policy makers, entrepreneurs and the general public.

UIA has decided to seize this opportunity to contribute to the scientific debate.

It is not infrequent that scientific progress and the improvement of people's quality of life are hampered by laws and regulations conceived in less scientifically advanced times. A very clear example is the impact that the inability of lawmakers to properly address liability issues has on the advent of unmanned vehicles.

UIA wishes to contribute, by bringing together scientists and law experts, to identify the challenges that science poses to law and to try to envisage possible solutions.

**Save the date and make sure to register! We are looking forward to welcoming you to Trieste!**

All the information regarding our seminars is available on our Website **[www.uanet.org](http://www.uanet.org)**  
The registration programme will be available soon.  
For more information, please do not hesitate to contact us.
